

Full-time Faculty and Staff Turnover

For July 2003-June 2008	Faculty*		Other Staff (part-time and full-time)**	
	N	%	N	%
Total Number of Individuals Employed in this Period	2336	100.0%	28377	100.0%
Number of New Hires in this Period	738	31.6%	18806	66.3%
Number of Retirements in this Period	195	8.3%	1119	3.9%
Number of Departures in this Period	471	20.2%	16269	57.3%

* Except for retirements, faculty data includes all faculty titles including instructor, visiting, and acting. While it is not currently possible to separate the latter, the headcount for instructor, visiting and acting faculty is very small.

Retirement data does not include instructor, visiting and acting faculty since they are not part of the retirement system.

(Note: approximately 7% of title codes in retirement database were blank, so this number is probably an underestimate).

** Data for full- and part-time staff are not stored separately, thus the numbers for staff hires and departures represent all staff categories. Retirement data is for permanent staff only.
